Why choose *Drug Discovery Today*?

We believe that we are unique from any other drug discovery periodical in that we have a blend of print and electronic products that give us the ability to provide a service to our readers and commercial customers that is unrivalled.

Drug Discovery Today, a peer-reviewed journal with reach

Drug Discovery Today is a fully peer-reviewed journal, well-respected in both industry and academia. It has been published since 1996 and contains high-quality review articles and editorials. All published reviews have been individually invited by the Editor, sometimes guided by suggestions from our excellent Editorial Board. The authors chosen to write articles are recognised experts in industry and academia. Our content has a broad and deep impact on the industry that is continuing to grow. The peer review process ensures consistent quality of our articles due to assessment by at least two external experts in addition to in-house review.

As a result of the quality content provided by *Drug Discovery Today*, we ensure a high quality readership from key individuals and decision-makers in drug discovery and development. This can be seen from the circulation breakdown provided in this media pack.

Drug Discovery Today, a unique innovative brand of products tailored to meet your needs

We have adapted: The Editorial team at *Drug Discovery Today*, in my opinion, is unlike any other catering for the drug discovery professional. First of all, we are responsive and flexible; we will work with you in a number of ways best to address your needs. We have shown our responsiveness in the ways we have reacted to industry changes over the last few years. A few years ago, we were effectively a print-based product, but since then we have combined with some of our other titles, to provide better coverage and have transitioned to become a digital publication. This allows greater functionality than we previously were able to offer.

With flexibility comes innovation: We now have a portfolio of integrated approaches, described in the pages of this media kit. Because we are flexible, we can discuss with you which combination of products would meet your objectives. We are introducing still more new products during 2021 for both the journal and website in response to comments from our readers, following our history of success from other such introductions.

We're approachable: The *Drug Discovery Today* team is more than willing to talk and develop a turnkey solution to highlight your campaign.

However you decide to benefit from *Drug Discovery Today*, we are here to listen to what is driving your business.

With best regards,

Dr. Steve Carney
Editor, *Drug Discovery Today*

Benefits of partnering with *Drug Discovery Today* for webinars

- **Position your company as a thought leader**

Engage with researchers and scientific communities through compelling content around a relevant topic facing your audience.

- **Capture qualified leads**

Benefit from our extensive experience to attract your target audience through a dedicated marketing campaign. Every registered delegate becomes a self qualified sales lead. *Drug Discovery Today* readers are highly qualified and have purchasing authority.

- **Create significant brand awareness**

Webinars are highly effective in reaching a large scientific audience through sponsorship. The *Drug Discovery Today* brand is trusted for its editorial integrity; the webinars will be moderated by the journal's editor and co-branded by the journal.

- **Truly engage and interact with your audience**

Receive immediate feedback via live Q&A and polls. Follow up on unanswered questions and generate dialogue post-event.

- **Receive tracking and reporting details within 48 hours**

Our comprehensive lead reports show all viewer profiles and usage statistics, allowing your sales team to follow up with leads after the event.

- **Benefit from extended archiving**

The webinar will be available on-demand following the live broadcast on both *Drug Discovery Today* and Elsevier websites, thus continuing to generate sales leads and delivering extended ROI.

Editorial suggestions for webinar topics:

- Synthetic biology
- Gene editing
- Antibiotic resistance
- Induced pluripotent cell lines
- Antibody-drug conjugates
- Big data
- Cocrystallisation
- In silico approaches to drug discovery
- Ocular delivery
- Rare and orphan diseases

To discuss any of the above webinar topics or suggest your own, please contact your sales representative.
